## INTRODUCTION

Applied AI Engineer and Software Engineering student combining deep expertise in generative AI integration with experience in B2B sales and go-to-market strategy. Specialized in AI-driven automation workflows while directly driving client acquisition and revenue growth.

## WORK EXPERIENCE

### Dentraflow

Co-Founder

February 2026 – May 2026

- Spearheaded B2B outbound sales strategies, effectively converting cold prospects into partnerships.
- Architected the go-to-market strategy for an AI automation platform to maximize client revenue capture.
- Directed digital presence and lead generation pipelines to eliminate missed appointment inefficiencies.

### Retrax

Prompt Engineer

Remote(Islamabad, Pakistan)

April 2025 – July 2025

- Engineered AI-driven prompt systems to automate content creation workflows.
- Reduced manual design cycles through structured prompt templates and consistent visual output automation.

## TECHNICAL PROJECT

### Support Automation System

- Built a multi-tenant AI support system using FastAPI, PostgreSQL, with JWT auth and RBAC
- Engineered a RAG pipeline grounding Gemini-generated ticket replies in company knowledge docs
- Implemented an agentic triage-to-approval workflow validated by 68 automated tests on SQLite and PostgreSQL.

## ADDITIONAL EXPERIENCE

### Google Developer Group on Campus (Society)

Social Media Lead

Islamabad, Pakistan

September 2024 – Present

- Managed structured schedules for technical workshops and community engagements
- Analyzed engagement analytics to pivot content strategies, increasing community reach and member retention within the technical society.

### FrequenzyPK

Co-Founder & Media Head

Islamabad, Pakistan

June 2025 – Present

- Orchestrated end-to-end operations for 3 large-scale community events successfully scaling attendance to 700+ participants.

## EDUCATION

### SZABIST University

Bachelor's Degree in Software Engineering

GPA:3.37/4

Islamabad, Pakistan

2027
